Ukulele Tips: Chords: **C, G7, F, Am** — classic lullaby shapes, smooth and easy.

Keep a gentle **3/4 waltz** rhythm: *down, down-up, down, down-up* at around 60 bpm.

For an even softer sound, use your thumb only, brushing across the strings

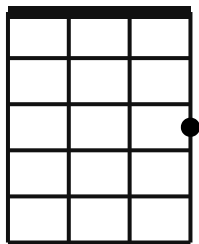

lightly.

Try fingerpicking ****4-3-2-1**** and letting each chord ring — it sounds beautiful before bedtime.

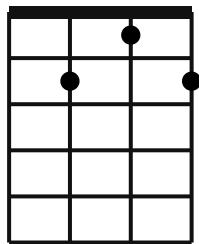

Sing softly, as if you're singing just for one person.

Let the final C fade into silence — the quiet after the lullaby is part of the magic.
