Ukulele Tips: Chords: ****C, F, G, Am, Dm**** — bright and easy on ukulele.

Strumming pattern: ****down-chuck-up-up-chuck-up**** for that funky McCartney bounce.

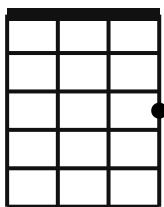

Use light palm mutes between strums to make it percussive — it's more about rhythm than ringing chords.

Add flavour by switching ****C → Cmaj7**** on the off-beats for a playful shimmer.

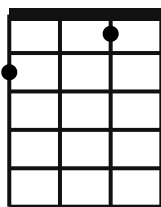

Play around 110 bpm — quick, bouncy, and upbeat.

Smile when you sing; this one's all joy and movement.
