Ukulele Tips: Chords: ****C, Am, F, G, Dm, Em**** — classic shapes, easy transitions.

Keep it at about ****96 bpm**** with a groovy ****down-chuck-up-up-down-up**** strum.

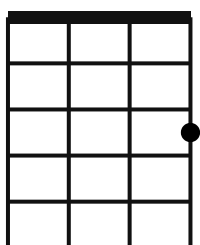

Lightly tap or mute on beats 2 and 4 for that HAIM-style percussive pop feel.

Let the verses stay quiet and intimate, then lift the strumming in each chorus.

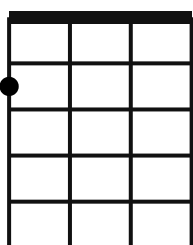

If you want to capture the band's live energy, throw in quick muted downstrokes before chord changes.

Finish softly on the final G — a sigh, not a statement.
