Ukulele Tips: Keep a gentle ****down-down-up-up-down-up**** rhythm around 86 bpm.

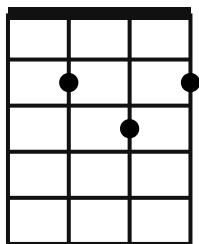

Use ****G-D-C**** through most of the song, with ****Em-C-G-D**** for the chorus.

Play softly at first, then build each verse like waves rolling in.

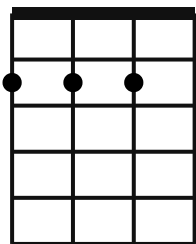

If you want the shimmer of the original guitar, strum near the bridge for brightness.

Let the final C chord ring — calm, warm, and quietly glowing, just like the song's namesake.
