Ukulele Tips: Chords: ****G, B, C, Cm**** — four chords of pure melancholy.

The tricky one is ****B major**** — barre the second fret or use partial shape 4322 for smoother transitions.

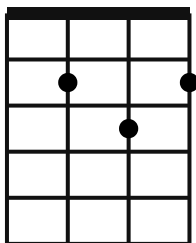

Keep a slow, even ****down-down-up-up-down-up**** strum at about 84 bpm.

For intimacy, try soft fingerpicking (pluck 4-3-2-1) and let chords ring.

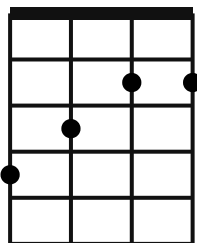

Sing it quietly, honestly — the contrast between sweet uke and aching lyric makes it hit harder.

Let the last Cm fade naturally; silence is part of the song's emotion.
