Ukulele Tips: Chords: ****C, F, G, Am, Dm, E7**** — lively, bright, and perfect for that Mercury sparkle.

Use an energetic ****down-down-up-up-down-up**** at around 140 bpm — it should ***bounce***.

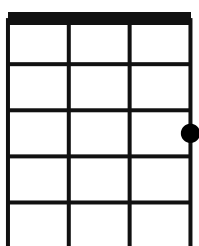

Accent the first downbeat of each bar; the song runs on momentum.

Drop to light downstrokes during “I’m a shooting star...” for a tension build, then explode back in.

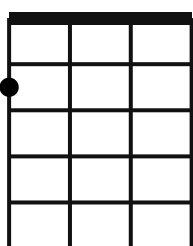

Sing with joyful arrogance — this isn’t subtle music.

Strum the final C with a big grin and hold it until someone inevitably joins in.
