Ukulele Tips: Chords: **D, G, A, Bm** — bright, snappy, and energetic.
Strumming: *down–down–up–chuck–up–down–up* — fast, tight, and percussive.
Play around 145 bpm for full punk energy, but keep the groove bouncy rather than stiff.
Tap or slap the uke body on beats 2 and 4 for that tribal Bow Wow Wow rhythm.
Don't worry about polish — lean into raw, joyful chaos.
End on a loud, triumphant **D**, like you just led a revolution in wellies.
