Ukulele Tips: Chords: ****Am, G, F**** — simple but hypnotic; loop them smoothly and evenly.

Strumming: ***down-down-chuck-up-down-chuck*** or fingerpick gently for a deep house flow.

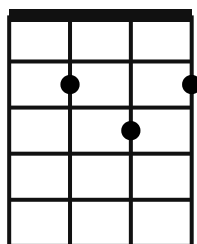

Add palm muting to create a “kick-snare” effect — rhythm drives this song. Keep tempo around 110 bpm for a relaxed groove.

Vocals: sing the “la da dee” light and effortless — like a trance mantra. Let the verses feel soulful and human; the groove carries the message.
