Ukulele Tips: Chords: ****Am, Dm, G, F, E7**** — all standard funk-friendly shapes.

Use a short, snappy ****down-chuck-up-chuck**** strum; mute quickly to keep it tight and groovy.

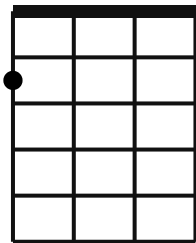

Accent beats 2 and 4 — that's where the funk lives.

For flair, tap the uke body on beat 1 occasionally to imitate a kick drum.

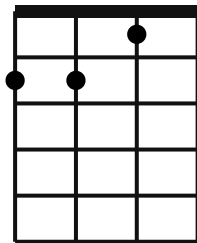

Sing it bold, playful, and rhythmic — you're half frontman, half mischief.

Let the final Am fade with a grin and maybe a "woo!" for good measure.
